GRANT REGIONAL HEALTH CENTER – EXPANSION & RENOVATION

December 1st, 2017

What's New?

December is here and the crews are working hard to finish up the exterior work for the season before the winter weather hits. Over the past few weeks quite a bit of structural steel has been put into place, along with the steel decking for the new addition. Soon the decks will be filled with concrete, along with a few areas of slab-on-grade being added to create floors for the additions! The Rehab parking lot near the south side of GRHC was also opened up last week. On the interior of the building, casework is being installed for the new Emergency Department, and the Pharmacy area is just about ready for action. There is ongoing painting, flooring work, ceiling installation, and accessory installation throughout the construction areas. Coming up will be the turnover of the Education area and Emergency Department, along with the official opening of the new Pharmacy area.

The Past Weeks

- Steel structure and deck for the new Clinic / Med Surge addition
- Accessories and final coats of paint in the Emergency Department
- Casework installation in the Emergency Department
- Removal of the barriers into the Pharmacy area
- Turnover of the Rehab parking lot near the Maintenance Garage

Coming Up in the Weeks Ahead

- Concrete pours for the slab-on-grade and slab-on-deck areas
- Final painting and accessory install in the Emergency Department

A view of one of the TVs in the smaller classroom in the new Education area!

Blue accent walls and beautiful carpet can also be found inside of the larger classroom.

Doors and flooring have been installed in the temporary sterile storage area. This area will be turned over with the Emergency Department.

Final coats of paint are being added in the Education Area to complete the space.

Did you know? December 21 is the Winter Solstice—the astronomical first day of winter in the Northern Hemisphere and first day of summer in the Southern Hemisphere. For us, this means that the days will start getting longer again!

GRANT REGIONAL HEALTH CENTER – EXPANSION & RENOVATION

December 1st, 2017

A view down the hall of the new Pharmacy hallway. The two doors shown on the right hand side lead to the Pharmacy area, and an office space for the Pharmacy Manager.

New casework installed in the Pharmacy room. Soon different furniture and shelving will be installed.

Casework and countertops in the Pharmacy staff work area. This area will soon be operational.

A view of the Pharmacy Managers office space looking towards the doors leading to the hallway. Furniture will soon be installed as well.

GRANT REGIONAL HEALTH CENTER – EXPANSION & RENOVATION

December 1st, 2017

The new Rehab lot is paved and open for business! This can be accessed from the south side of GRHC, just before the construction site.

Some new areas of sidewalk were also added near the new Rehab Lot.

A view of the steel that is in place, along with the decking that will be used to support the concrete floor. To the right you can see one of the team members using surveying equipment to help the crew place their materials in the correct spots!
